

## FIRE BALLS

# Fire Ball

- Keep near a risk or throw in

## TECHNICAL SPECIFICATIONS

### GENERAL

|      |                                        |
|------|----------------------------------------|
| Type | Self-activating fire ball (dry powder) |
|------|----------------------------------------|

### How to use

1. Keep it near a fire risk: it bursts when flames reach it
2. Or throw it into a small fire from a safe distance

### Care & service

Replace the fire ball after it bursts or once it passes its expiry date.
